Issue tracking

Do you think you have found a bug? Do you want to see a new feature in BioNetDB? Please open a case in our issue tracking at GitHub issue tracking. Do not worry about what labels, milestone and who should be assigned, we will take care of them. Just write a concise title and a detailed information.

Thank you very much!

Mailing list

To be in touch you can join the OpenCB Google Groups, this is the only way at the moment. You could also find some discussions and other interesting information. You can subscribe to it at **OpenCB**

License

All OpenCB projects use Apache License v2 described here: http://www.apache.org/licenses/LICENSE-2.0.html
