Navigation bar of IVA

The title, version and logo of web application are taken from [config.js](#).

For every menu item in the navigation bar, there is visibility option. It accepts three values - public, private and none.

- Public mode ensures that menu item is always visible in the application.
- Private mode displays that item only when the user is successfully logged in.
- None option is to hide that menu item.

IVA application

```
var application = {
  title: "IVA",
  version: "v0.6.0",
  logo: "images/opencb-logo.png",
  menu: [
    {
      id: "samples",
      title: "Samples",
      visibility: "public"
    },
    {
      id: "browser",
      title: "Variant Browser",
      visibility: "public",
      // Allows to provide default filters for the browser
      filters: [
        {
          name: "Example BRCA2",
